

SOLBERGÅSEN

FLYING SITE INFORMATION

N 59° 46' 10" E 10° 3' 0

Non-emergency police: 02800

TAKE-OFF

Min. certification: PP3/SP3
Max. altitude (TMA): 1372 m.a.s.l.
Take off altitude: 401 m.a.s.l. (375 m top-to-bottom).
Orientation: E-SE
Note: The steep cliff edge requires good wing control. Be prepared for a strong vertical drag when you pull up the wing in high winds. Strong thermals may occur. Ensure flying wing before takeoff, there is no return.

Drive extremely slowly last part before parking. Park decently and out of the way for other traffic.

Airspace boxes: Hokksund B above start (see map below).
Activation of boxes **as given on dropfly.no**.

Radio frequency HP/NLF: 154.175 MHz

LANDING

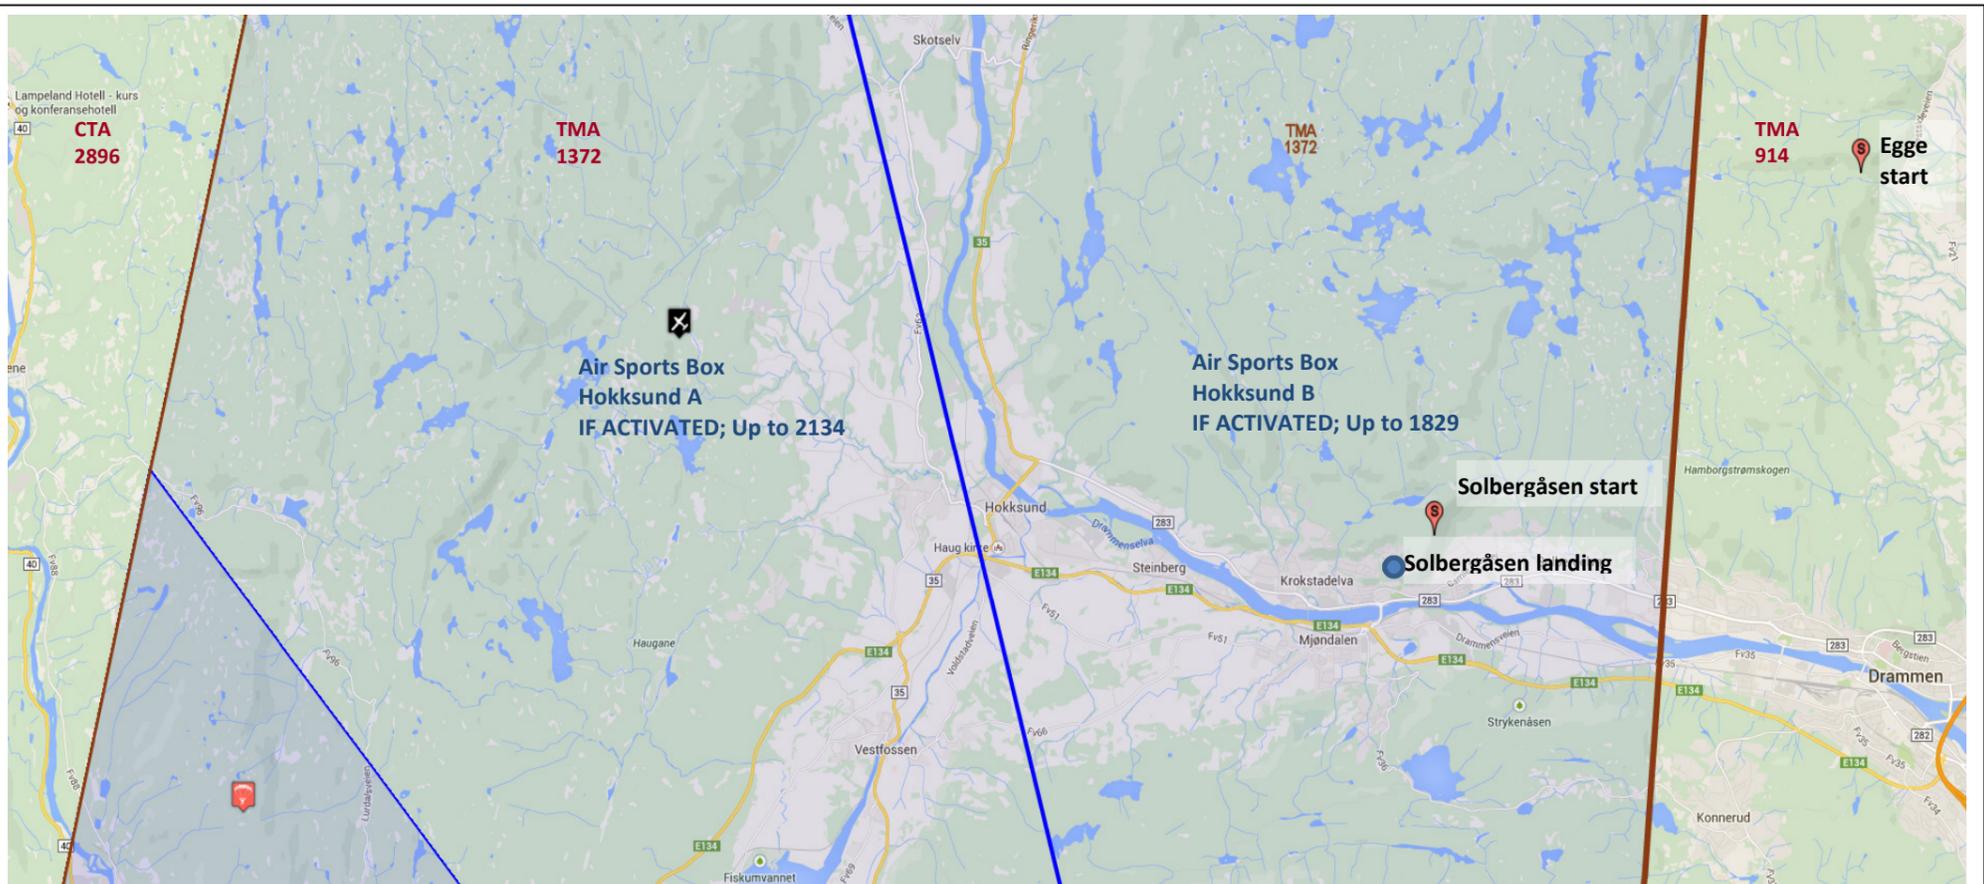

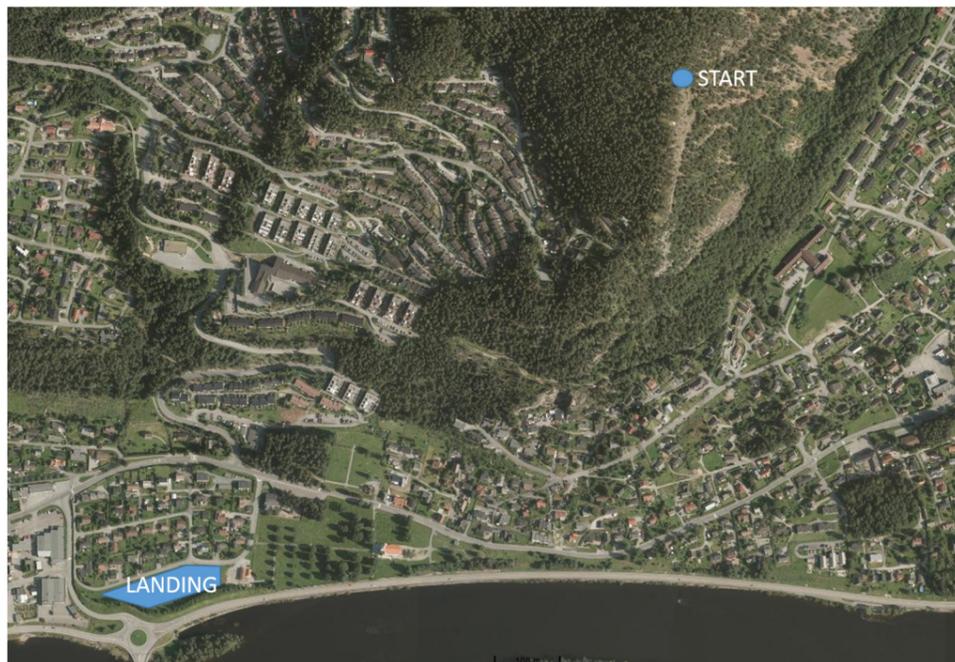

Landing: Landing is in public park west of Nedre Eiker Church (see map). The landing is small, obstructed and prone to turbulence. Be aware of:

- Ditch with pathway (see map)
- Lamp posts (see map)
- Possible strong easterly winds 50-200 meters above landing

Note: Do not land here in southern winds.

Note: Be aware of turbulence and wind on landing. Reduce height upwind of landing site. High risk of strong turbulence in southern winds. Several much better landing sites further west, starting about 3 km further west, if you have sufficient height.

Parking: Parking next to landing field.

CONTACT INFORMATION

DROP- Drammen og Omegn Paragliderklubb - [www. http://dropfly.no](http://dropfly.no)

Accidents should be reported to **HP/NLF** - www.nlf.no - hp.nlf@nlf.no and your local club.
